## Forward-Looking Statements

This Investor Presentation ("Presentation") contains only preliminary information regarding our Company and should be read in conjunction with the entire Private Placement Offering Memorandum ("Memorandum" and Subscription Agreement, including all the Risk Factors mentioned therein. An investment in this Offering is highly speculative, an investor could experience an entire loss of principal, and the investment is illiquid for an indefinite period.

The Company and our officers and representatives may, from time to time, make "forward-looking statements" within the meaning of the Safe Harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements can be identified by words such as: "anticipate", "intend", "plan", "goal", "seek", "believe", "project", "estimate", "expect", "strategy", "future", "likely", "may", "should", "will" and similar references to future periods.

Examples of forward-looking statements include, among others, statements we make regarding guidance relating to revenues, gross margins, operating income, net income, and net income per share; expected operating results, such as revenue growth and earnings; anticipated levels of capital expenditures for the fiscal year; current or future volatility in the credit markets and future market conditions; our belief that we have sufficient liquidity to fund our business operations as planned; expectations of the effect on our financial condition of claims, litigation, contingent liabilities, and governmental and regulatory investigations and proceedings; strategy for growth, product development, market position, financial results, and reserves; strategy for risk management. Forward-looking statements are neither historical facts nor assurances of future performance. Instead, they are based only on our current beliefs, expectations, and assumptions regarding the future of our business, future plans and strategies, projections, anticipated events and trends, the economy, and other future conditions. Because forward-looking statements relate to the future, they are subject to inherent uncertainties, risks, and changes in circumstances that are difficult to predict, many of which are outside our control.

Our actual results and financial condition may differ materially from those in the forward-looking statements. Therefore, you should not rely on any of these forward-looking statements. Important factors that could cause our actual results and financial condition to differ materially from those indicated in the forward-looking statements include, among others, the following: economic and financial conditions, continued volatility in the capital or credit markets; the adequacy of our cash flow and earnings and other conditions; developments and changes in laws and regulations. Investors are strongly encouraged to review all Risk Factors and the entire Private Placement Memorandum ("Memorandum") and Subscription Agreement(s) before investing.

Any forward-looking statement in this document is based only on information currently available to us and speaks only as of the date on which it is made. We undertake no obligation to publicly update any forward-looking statement, whether written or oral, that may be made from time to time, whether as a result of new information, future developments, or otherwise.

This Presentation is intended for general solicitation under the exemption for Regulation D 506(c) but does not constitute an offer to sell or a solicitation of an offer to buy any securities. The information contained herein has been prepared by the Management of the Company to assist interested parties in evaluating the Company and does not purport to contain all of the information that a party may desire. In all cases, interested parties should conduct and rely on their investigation and analysis of the Company and the data set forth herein.

### Read Risk Factors

Understanding and managing risk is critical to effective decision-making and successful outcomes.

THESE ARE HIGHLY ILLIQUID & SPECULATIVE SECURITIES THAT INVOLVE A HIGH DEGREE OF RISK. ONLY THOSE INVESTORS WHO CAN BEAR THE LOSS OF THEIR ENTIRE INVESTMENT SHOULD INVEST IN THESE SECURITIES, AND INVESTORS MUST ALSO BE WILLING TO HOLD THESE SECURITIES FOR AN INDEFINITE PERIOD OF TIME.

Purity Meets  
Perfection

# INVESTMENT SUMMARY

We specialize in creating unique, **proprietary** tequila profiles and bring **ultra-premium, organic-certified**, small-batch tequilas to market. We import and sell these distinguished products and maintain a steadfast commitment to **sustainability** throughout our operations, including but not limited to recycled handmade glass bottles, zero waster – energy efficient distillery, 1% for the planet, biodegradable label, zero soil and plant contamination (no pesticides, fertilizers added).

Notably, the USDA and EU organic certification, renowned for its **rigorous standards**, underscores our unwavering commitment to quality and authenticity. Stocking Casa Mate Tequila presents an **opportunity for distributors and retailers** which cater to a discerning customer base that values organic and sustainable products.

## SUPERIOR AGAVE SOURCE

We only source agave from certified organic farms with **7 years** of maturity to harvest. We have 25+ years of agave supply free of **chemicals and fertilizers**.

## PROPRIETARY TEQUILA PROFILE WITH SMALL-BATCH PRODUCTION

We utilize a **small batch** distillation and volcanic stone brick oven vapor stream process that is on a higher level than other standard mass-market producers. Our distillery uses a **patented yeast strain** with a **proprietary profile** to deliver the smoothest flavorful tequila in the market.

## THIRD-PARTY CERTIFICATION

With its distinguished **USDA, UK and European Union organic certification**, we have established an **ultra-premium additive-free** quality positioning in the tequila market.

## LOCAL KNOWLEDGE – GLOBAL GROWTH

Our team has **in-depth** and **generational knowledge** of agave farming and tequila production in Mexico, with the ability to scale up sales of the ultra-premium brand in the US and Europe, where the quality requirement is more rigorous.

## PROOF OF CONCEPT

We have won several **blind-tasting awards** (e.g., 2022 Consumer Choice Awards) for smoothness, aroma, and complex flavors. As a result, our target market demographic is primarily women and metrosexual men, who care about experience, tastes, quality, purity, and sustainability. San Diego, Orange County and Los Angeles are consuming and rebuying our tequila since 2023

# PROBLEM

## NON-ORGANIC

98% of the tequila in the market is mass-produced with 3 to 4-year young agave using fertilizers and chemicals for plants during large-scale production.

## LOW QUALITY

Everyone uses the diffuser and autoclave production techniques, producing the same harsh taste and low-quality product with additives\*.

## SHIFTING DEMOGRAPHICS

Over 51% of Tequila drinkers in the US are between the ages of 21 and 44, mostly men. The demand for smooth and clean tequila for all sexes is increasing.

## CONSUMER AWARENESS

Consumers demand great-tasting sustainable organic juice, an attractive package, and a commitment to a sustainable future.

\* Additives – Glycerin, oak extract, caramel color and jarabes, natural sugar-based syrups like agave nectar, or sugar substitutes.

Difficult to  
differentiate

Long and steep  
learning curve

Quality control is  
driven by local  
knowledge

The Tequila Matchmaker database currently contains 2,345 different non-organic mass-produced tequila brands. Fierce competition in this market segment.

The study of over 2,000 people found that Americans ranked Tequila as the worst hangover (headaches, chest burns, and of their lives 22.94%, followed by vodka (20.82%), wine (17.02%), and whiskey (15.43%).

Developing a perfect  
tequila profile is both  
art and science.

# SOLUTION

## ORGANIC CERTIFIED

We are certified organic by USDA and the European Commission. There are no chemicals, accelerators, flavors, or colorants added.

## ARTISANAL PRODUCTION

We utilize a small batch distillation and volcanic stone brick oven vapor stream process that is on a higher level than other standard mass-market producers.

## PROPRIETARY PROFILE

Our proprietary profile, perfected over three years results in the highest quality, best tasting, organic, low-calorie tequila brands on the market.

## AWARD WINNING

Casa Mate was named a Consumer's Choice Award for 2022, in 2024 we earned innovation award and double gold for the best tequila; we're a fast ultra-premium organic tequila growing among customers.

The accreditation confirms that the agave incorporated in our production is cultivated without synthetic fertilizers, pesticides, or genetically modified organisms.

100% Blue Agave

Awards In Blind Tasting

USDA EU UK & Kosher Certified

Purity Meets Perfection

## COMPETITIVE ADVANTAGES

Our 100% certified organic blue agave comes from volcanic soil in the lowlands (Tequila region). The region produces the best organic agave due to its mineral properties. The growers carry out the cultivation out without pesticides, fungicides, or chemical fertilizers.

# CASA MATE

**Our Mission**

We are redefining the spirit of celebration through our artisanal, **organic**, and **additive-free** tequila. We are committed to the environment, preserving the **integrity** of the agave, and upholding **traditional** production methods to bring the **smoothest** and the most **flavorful** tequila globally.

## Casa Mate Spirits Corp.

Casa Mate Spirits Corp. (“Casa Mate”) was incorporated under the laws of Delaware on December 15,2022. The founders had been conducting operations under Casa Mate Spirits, LLC <sup>(3)</sup>, a California limited liability company, since its organization in California in August 2018.

The Company imports, brands, markets, and sells ultra-premium small-batch organic tequila products under its “Casa Mate” brand. Casa Mate is the equivalent of the Spanish word for ‘House and Mate’ – Our product is so good, pure, and clean that we are the tequila industry’s Check Mate.

<sup>(1)</sup> High-quality small-batch traditional tequila. Smoothest gluten-additive-sugar-free.  
<sup>(2)</sup> Applied for Kosher certification.  
<sup>(3)</sup> Wholly-owned subsidiary of Casa Mate.

# OUR PROCESS

## REGION

Our 100% certified organic blue agave comes from volcanic soil in the lowlands (Tequila region). The growers cultivate without pesticides, fungicides, or chemical fertilizers.

## HARVESTING

All our agaves are seven years old and harvested by hand according to age-old tradition. We harvest agave during the dry season, right before the rains.

## COOKING

The piñas agave plants go into a volcanic stone oven and are cooked with consistent steam for 48 hours.

## DISTILLATION

Our distillery is in the Magic Town of Tequila Jalisco, the Volcanic lowlands. The distillery uses our proprietary profile to create the smoothest and most flavored tequila.

Driven by tradition

Proprietary profile

**Casa Mate Spirits LLC** (subsidiary) imports and distributes Casa Mate products, while the NOM 1577 Agave Conquista Distillery manufactures the Casa Mate products. On December 31, 2022, the Company and NOM 1577 Agave Conquista Distillery entered the extended Entailment and Joint Responsibility [EJR] Agreement. The EJR Agreement is valid for 50 years.

The founders' heritage involves generational experience sourcing organic agave and operating the NOM 1577 Distillery.

Purity Meets  
Perfection

# IMPORTING & STORAGE

## Importing, Warehousing, and Storage

We have an agreement with American Spirits Exchange (ASE) Importer, a complete distillery and spirits importing program for alcoholic beverages that allows us to brand, market, sell, and distribute our brand without incurring high fixed and operating costs.

## Permits, Purchase, & Processing

ASE assists us with permitting, purchase order processing, invoicing, and compliance. ASE also supports us with warehousing and transportation, as needed.

We currently use Speakeasy for direct-to-consumer fulfillment, where individuals can order our tequila through [www.casamatetequila.com](http://www.casamatetequila.com) in over 35 states.

The founders' families have generational experience sourcing organic agave and operating the NOM 1577 Distillery.

# BOTTLE ECONOMICS

The largest expense is the cost of agave. At \$10.55, production cost constitutes a significant portion, precisely 61.80%, of the total production cost for a 750 ml bottle.

By opting for a small-batch, volcanic stove oven and traditionally-made blanco tequila, we uphold the values and principles that define our brand. As a result, we do not use an autoclave or diffuser, like 98% of other non-organic tequila producers.

We differentiate on tradition, quality, and experience to build everlasting brand loyalty and commitment.

<sup>(1)</sup> COGS includes production, packaging, excise, importer, and freight costs.

750 ml Profitability

## Bottle Profitability

|                       | Three-Tier | DTC     |
|-----------------------|------------|---------|
| MRSP:                 | \$69.00    | \$69.00 |
| COGS <sup>(1)</sup> : | \$16.67    | \$16.67 |
| Distributor:          | \$18.00    | -       |
| Retail:               | \$13.00    | -       |

## Taste Tequila and Tequila Matchmaker Research <sup>(5)</sup>

The traditionally-made tequilas contained more cooked agave aromas and flavors.

When tasted blind, people are less likely to recommend diffuser-made products to traditionally made tequila.

Consumers can identify the use of additives in non-organic tequila by the presence of “medicinal,” “chemical,” “fake fruit,” or “candy-like” aromas and flavors.

Our brick oven process, press mill to extract the agave juice, and distillation in stainless steel columns get the top ratings.

<sup>(5)</sup> [tastetequila.com](https://tastetequila.com)

Advantage

# COMPETITIVE ADVANTAGE

## Unmet Target Market for Tequila

|             |                                                                              |
|-------------|------------------------------------------------------------------------------|
| Location:   | Urban to Suburban, highly populated areas                                    |
| Experience: | 25 to 45, college+, professional, income+                                    |
| Habits:     | Health and environment-conscious, brand and quality aware, experience-driven |

Producers who choose an industrialized diffuser process tend to use younger agaves, taking them out of the market before traditional producers like Casa Mate.

**Agave Conquista plantations allow us a high-quality mature agave supply for the foreseeable future.**

## Local knowledge is a must

Distilleries that white label will often sell pre-made, bulk tequila they've got in storage.

**We have partnered with Agave Conquista Distillery, which makes great, traditionally-produced small-batch tequila.**

**We have a compelling brand story, which identifies and articulates how our tequila fills a void in a distributor's portfolio and its need behind the bar.**

Purity Meets  
Perfection

# VALUATION SUMMARY

The spirits industry, characterized by mature and fragmented market dynamics, often paves the way for consolidation as companies seek economies of scale. Historically, prominent spirits companies have shown a proclivity for acquiring brands within the tequila segment, particularly in the premium category. Tequila segments have shown significantly faster growth compared to the overall industry. Consequently, acquisitions in the premium tequila space have commanded premium valuations, reflecting the high value placed on these brands.

| Methodology           | Total Valuation | Weightage | Value Contributions |

### DCF

Discounted cash flow DCF analysis determines the company’s present value of the cash flow it can make in the future.

### Comparable Analysis

Comparable company analysis (or “comps” for short) is a valuation methodology that looks at ratios of similar public companies and uses them to derive the value of another business.

### Precedent Transaction

Precedent transaction analysis is a company valuation method where past M&A transactions are used to value a comparable business today.

### Volume Based

Volume-based valuation in the alcohol industry assesses the worth or value of a company or brand based on its sales volume or the number of units sold.

<sup>(6)</sup> [www.theiwsr.com/news-and-comment-how-tequila-is-challenging-its-party-drink-reputation/](http://www.theiwsr.com/news-and-comment-how-tequila-is-challenging-its-party-drink-reputation/)

Given the maturity of the overall spirits industry, investors are willing to pay higher multiples for companies in faster-growing segments. Over the period from 2014, the overall tequila market experienced a growth rate of 22%. However, the premium segments and above within the tequila market grew at a significantly higher rate of 64%.<sup>(6)</sup>

These growth figures demonstrate the attractiveness of the tequila market to investors and acquirers, resulting in higher valuations and multiples for companies operating within the tequila industry, particularly in the premium segment.

Source: Seeking Alpha, Valuation Based on Transaction Multiples

<sup>(8)</sup> Seeking Alpha, Valuation Based on Transaction Multiples

It is worth noting that the benchmark valuation in the spirits industry is often cited as \$1,500 per nine-liter case or \$750 per 4500 ml six-pack case. These transactions provide insights into the valuation multiples and price per case paid for prominent tequila brands, reflecting the premium nature of the tequila market.

Within the tequila industry, there have been several notable transactions with available valuation data. Here are some examples <sup>(8)</sup>:

**Bacardi's acquisition of Patron:** In January 2018, Bacardi acquired Patron, valuing the brand at USD 5.1 billion. The valuation metrics were reported as 7.5 times sales, 25.5 times EBITDA, and approximately \$1,962 per nine-liter case or \$981 per 4500 ml or six-pack case.

**Diageo's acquisition of Casamigos (Clooney Effect):** In June 2017, Diageo acquired Casamigos for USD 1 billion, valuing the brand at approximately 20 times sales. The price per nine-liter case ranged from \$8,000 to \$11,000 per nine-liter or \$4,000 to \$5,500 per 4500 ml or six-pack case, depending on the final payout terms.

**Diageo's acquisition of Don Julio:** In November 2014, Diageo swapped its Irish whiskey brand Bushmills for Don Julio, valuing the premium tequila brand at 7.7 times sales and approximately \$800 per nine-liter case or \$400 per 4500 ml or six-pack case.

**Brown-Forman's acquisition of El Jimador:** Brown-Forman acquired El Jimador for approximately \$648 per nine-liter case or \$324 per 4500 ml or six-pack case.

**Constellation Brands' acquisition of Casa Noble:** Constellation Brands acquired Casa Noble for approximately \$3,300 per nine-liter case or \$1,150 per 4500 ml or six-pack case.

**Pernod Ricard's acquisition of Avion Spirits:** Pernod Ricard acquired Avion Spirits in 2014, valuing the brand at approximately USD 5,700 per nine-liter case or \$2,850 per 4500 ml or six-pack case.

The Company estimates a \$2.5 million capital raise is needed to execute its business from 2023 to 2025.

Positive cash flow from operations is expected in fiscal 2027.

# CHARTS

Profitable Growth

We expect D2C distribution to increase from 10% in 2024 to 20% in 2028, resulting

| Fiscal | RTD        | 750 ml       |
|--------|------------|--------------|
| 2024   | \$ 144,614 | \$ 1,301,530 |
| 2025   | 497,091    | 3,479,637    |
| 2026   | 1,043,910  | 5,915,490    |
| 2027   | 1,826,828  | 8,612,188    |
| 2028   | 2,688,000  | 10,752,000   |

Depletion refers to the number of cases sold to retailers by a distributor.

As a producer, we need to focus on the depletion of stock from the retailer and not just the distributor. We will improve depletion at the retailer lever by:

- Host in-store tastings
- Social media engagement
- Secondary point of purchase displays
- Adjust packaging and messaging
- Data analysis of depletion reports
- In-store signage

# CHARTS

## Economies of Scale & Financial Condition

We expect variable costs – COGS and three-tier to D2C to improve with economies of scale and increasing revenues from D2C high-margin business,

The increased working capital surplus is due to increased cash flow from operations. We can use the surplus to conduct accretive acquisitions, provide dividends to shareholders, or expand our distributions globally.

# TEQUILA MARKET

**There are four types of tequila types:**

**Blanco:** Bottled right after distillation or aged in steel tanks for up to four weeks.

**Reposado:** Aged between 2–12 months in oak barrels.

**Anejo:** Aged between 1–3 years in oak barrels.

**Extra Anejo:** Aged 3 years or more in oak barrels.

**There are four types of tequila grades:**

**Value:** Low-quality and low-price Blanco (Silver) tequila with additives, with basic packaging, under \$30 to \$50 per 750ml

**Premium:** High-quality to medium-price Platinum Blanco to Reposado with attractive packaging, \$50 to \$75 per 750 ml

**High-end Premium:** High-quality to medium-high-price Reposado to Anejo with expensive packaging, \$75 to \$150 per 750 ml

**Super premium:** High-quality high-price Extra Anejo with expensive packaging, over \$150 per 750 ml

High-quality tequila is cooked in small batches with 100% blue agave and has often been aged for longer, resulting in more complex flavors.

HIGH-QUALITY TEQUILA IS OFTEN SIPPED NEAT AND IS EITHER REPLACING OR COMPLEMENTING WINE AND WHISKEY DRINKING HABBITS

# TEQUILA MARKET <sup>(10)</sup>

## GLOBAL MARKET

The global tequila market was valued at 13.8 billion U.S. dollars in 2021, and by 2028, the industry market size is expected to increase to 18.5 billion dollars.

## EXPORT DRIVEN

The total tequila production volume in Mexico is 527 million liters, of which 339 million liters are exported.

Market Size, \$ Billion

## FROM PARTY DRINKS TO REFINED SPIRIT

Tequila's popularity has been on the rise in the United States for years, and in 2021 it surpassed whiskey in retail sales, making it the second-best-selling spirit behind vodka.

## READY TO DRINK

Tequila is significant in the ready-to-drink cocktail market, second only to vodka as a beverage base.

Tequila is a distilled beverage made from the blue agave plant. Two major tequila categories exist: '100% agave' and 'Mixtos.'

<sup>(10)</sup> statista.com

# TEQUILA MARKET <sup>(10)</sup>

The term tequila is protected and may only be used on the product label if the alcoholic beverage is produced in specific regions of Mexico and contains at least 51% agave.

The tequila market is characterized by leading brands such as Patrón, Don Julio, and Casamigos. Patrón tequila sold about 3.2 million 9-liter cases in 2021.

The U.S. was, by far, the largest buyer of Mexican tequila exports, followed by further important markets such as Spain and Germany.

Over 72% of all tequila produced in 2020 was consumed in the United States.

California ranked first in terms of consumption. Texas and Florida rounded off the leading three consumption states.

The sports venues, such as T-Mobile Arena and Allegiant Stadium, have margaritas, made with fresh ingredients and 100% agave tequila, on the menu.

<sup>(10)</sup> statista.com

Tequila Exports from Mexico in million liters <sup>(10)</sup>

Julian Cox, corporate mixologist for MGM Resorts International, said total sales of vodka and tequila are **running neck and neck** at the hospitality giant. <sup>(11)</sup>

The Crown Royal owner forecasts that tequila sales will expand faster than the broader spirits industry for the next five to 10 years. <sup>(12)</sup>

Diageo CEO Ivan Menezes when during the company’s recent earnings call, said, “The (Tequila) category’s appeal across demographics is significant. It has crossed over. The multicultural growth is very strong. It cuts across age segments; it cuts across gender; it cuts across dayparts, the occasion, and the nature of drinks. It’s not just shots and margaritas as it used to be many years ago.” <sup>(12)</sup>

# RISK FACTORS

The terms and conditions set forth herein are subject to change, customary legal review, and the conduct of due diligence. This Executive Summary ("Summary") or Investment Presentation ("Presentation") does not constitute an offer and does not constitute an agreement or obligation on the part of any person to purchase or sell any of the securities of the Company.

## **Risk Related To Global Events**

The COVID-19 pandemic may materially adversely impact the Company's business results of operations and financial condition.

The Russia-Ukraine conflict may materially adversely impact the Company's business results of operations and financial condition.

## **Risks Related To The Company**

We may need to obtain additional financing, which may not be available.

We have a limited history of operations; accordingly, no track record would provide a basis for assessing our ability to conduct successful commercial activities. We may not be successful in carrying out our business objectives.

We intend to prepare our financial statements on a "going concern" basis.

Our business strategy may result in increased volatility of revenues and earnings, resulting in uncertainty of profitability.

Changes in employment laws, unionization issues, or regulations could harm the Company's performance.

A disruption in the distillation process or importation activities could have a material adverse effect.

The Company and its distributors could have licensing, legal, or regulatory issues.

The Company depends on its third party for Distillery, Warehousing, and Storing. We need to maintain a cordial relationship, craft products according to exact specifications, and protect trade secrets.

The Company relies upon trade secret protection to protect its intellectual property; it may be difficult and costly to protect the Company's proprietary rights, and the Company may not be able to ensure their protection.

The tequila segment of the spirits industry is subject to several state and federal regulatory authorities.

Government regulations and other negative alcohol usage campaigns and laws could reduce demand.

We may not be able to compete effectively against our competitors.

Our business model may not be sufficient to ensure our success in our intended market.

We depend on our intellectual property, and our failure to protect that intellectual property could adversely affect our future growth and success.

Our officers, directors, and entities affiliated with us significantly influence us.

The Company's bank accounts will not be fully insured.

The loss of our key personnel, Francisco Gonzalez and Oscar Madrid, or our failure to attract and retain other highly qualified personnel in the future could harm our business.

Management of growth will be necessary for us to be competitive.

Because we are small and do not have much capital, our marketing campaign may not be enough to attract enough customers to operate profitably. Our financial conditions will be adversely affected if we do not make a profit.

There are challenges relating to implementing our business strategy.

The Company's products are new, and its industry is evolving.

Specific Provisions of Our Articles of Incorporation and Bylaws Allow Concentration of Voting Power in One Individual, Which May, Among Other Things, Delay or Frustrate the Removal of Incumbent Directors or A Takeover Attempt, Even If Such Events May Be Beneficial To Our Stockholders.

If we fail to establish and maintain an effective internal control system, we may not be able to report our financial results accurately or prevent fraud. Any ability to report and file our financial results accurately and timely could harm our reputation and adversely impact the future trading price of our common stock.

# RISK FACTORS

## RISKS RELATED TO THE COMPANY (CONTINUED)

We may need and be unable to obtain additional funding on satisfactory terms, which could dilute our stockholders or impose burdensome financial restrictions on our business.

A data security breach could expose the Company to liability and protracted and costly litigation and could adversely affect the Company's reputation, operating revenues, and cash flows.

## RISKS RELATING TO OUR COMMON STOCK

There is no public market for our securities.

We are offering 2,000,000 shares of common stock without an underwriter and may be unable to sell any shares.

We will have broad discretion in using the net proceeds from this Offering.

The offering Price of the Shares being offered hereby was determined by the Company and bears no relationship to the Company's assets, book value, net worth, or operations and may not be indicative of the Company's actual value.

Purchasers of the Shares in the Offering will experience substantial immediate dilution in the net tangible book value of the shares from the offering price herein.

There is no liquidity and no established public market for our common stock, and we may not successfully obtain a quotation on a recognized quotation service. In such an event, it may be challenging to sell your shares.

Our common stock will be subject to the "penny stock" rules of the Securities and Exchange Commission. The trading market in our securities may be limited, making transactions in our stock cumbersome and may reduce the value of an investment in our stock.

We may, in the future, issue additional common shares, which would reduce investors' percentage of ownership and may dilute our share value.

We intend to become subject to the periodic reporting requirements of the Securities Exchange Act of 1934, which will require us to incur audit fees and legal fees for preparing such reports. These additional costs will negatively affect our ability to earn a profit.

We are not likely to issue dividends for the foreseeable future.

## NASAA Legend

You should make your own decision about whether this placement meets your investment objectives and risk tolerance level. No Federal or State securities commission has approved, disapproved, endorsed, or recommended this placement. No independent person has confirmed the accuracy or truthfulness of this disclosure, nor whether it is complete. Any representation to the contrary is illegal. No state administrator has reviewed the disclosures included herein. The Company relies on an exemption from registration or qualification under applicable Federal and State Securities Laws.

# THANK YOU
