

5. Kinship Care Success Story- Ti Marisol [Link to Blog](#)

Three years ago, Marisol just wanted to be a good aunt.

The kind who shows up every single day.

Then her sister's addiction became too much, and her toddler niece needed a stable home.

Overnight, "Tía Marisol" became Mom.

She could handle the daycare drop-offs, the appointments, the bedtime routines.

What kept her up at night were the questions.

How do I help her feel secure when her whole world just changed?

Is this normal toddler behavior, or is it trauma?

So she joined a Kinship support group on Zoom.

And that first night, something shifted.

She wasn't alone.

Three years later, she still logs in.

Her niece is thriving, and Marisol has become a parent, a protector, a steady place.

She didn't do it by herself.

And if you're raising a family member's child in San Bernardino County, you don't have to either.

A Greater Hope is here for you.
